Career Objective

Aspiring MERN Stack Developer with a strong foundation in JavaScript, React, Node.js, and MongoDB. Dedicated to building scalable, efficient, and user-friendly web applications. Enthusiastic about leveraging my skills in collaborative, fast-paced development environments and eager to contribute to innovative projects that drive growth and learning.

Technical Skills

- Proficient in MongoDB, Express.js, React.js, and Node.js (MERN Stack)
- Strong knowledge of JavaScript (ES6+), HTML5, and CSS3
- Experienced in designing and integrating RESTful APIs
- Skilled in Git and GitHub version control
- Familiar with Agile development methodologies
- Competent in code debugging and testing

Projects

Natours - Tour Booking App

Personal Project 1 | [GitHub Link](#) | [Live Demo](#)

- Built a full-stack tour booking application using React, Node.js, Express, and MongoDB.
- Implemented secure user authentication and authorization using JWT and role-based access control to manage user permissions.
- Developed comprehensive CRUD operations for tours, users, and bookings through RESTful APIs.
- Designed a responsive and intuitive UI with React, featuring dynamic tour listings, filters, and detailed tour pages.
- Integrated stripe payment processing simulation to handle booking transactions and confirmations.

- Implemented server-side data validation, error handling, and optimized database queries to ensure high performance and security.
- Used React hooks and context API for efficient state management and seamless user experience.
- Deployed the application with continuous integration for reliable updates and maintenance.

The Wild Oasis - Hotel Cabin Management

personal project | [GitHub Link](#) | [Live Demo](#)

- Built a full-stack cabin booking application using React for the frontend and Supabase as the backend (PostgreSQL database, authentication, and real-time APIs).
- Implemented secure user authentication and authorization with Supabase Auth, allowing users to register, log in, and manage their bookings.
- Developed CRUD functionality for cabins, bookings, and user profiles, enabling users to browse available cabins, book stays, and manage reservations.
- Designed a responsive and user-friendly dashboard with React, providing users with an overview of their bookings and cabin details.
- Integrated Supabase Storage for uploading and displaying cabin images to enhance the user experience.
- Utilized Supabase's real-time features to update booking statuses and cabin availability instantly without page reloads.
- Implemented form validation and error handling to ensure reliable booking processes and data integrity.
- Managed application state with React hooks and Context API to provide smooth navigation and dynamic UI updates.

Education

Bachelor of Science in Information Technology

Auro University, Surat, India — June 2020

- Six months internship at Synex Technology (2019)

P.G Diploma in Computer Programming

Algonquin College, Ottawa, Ontario, Canada — May 2023

- Graduated with Distinction

Certificates

Udemy

- The Ultimate React Course 2025: React, Next.js, Redux & More
- Node.js, Express, MongoDB & More: The Complete Bootcamp

Work Experience

Manager

Spice Divine Inc, Ottawa, Ontario, Canada — March 2023 to December 2024

- Supervised daily store operations, ensuring smooth workflow and high customer satisfaction in a fast-paced retail environment.
- Mentored and trained team members, fostering collaboration, accountability, and continuous improvement.
- Implemented process optimizations to enhance operational efficiency and reduce errors.
- Developed strong problem-solving, communication, and leadership skills adaptable to managing software development projects and team dynamics.
- Managed inventory, vendor relationships, and customer service, demonstrating attention to detail and organizational abilities.

Cashier

W.O Stinson, Ottawa, Ontario, Canada — September 2021 to April 2023

- Delivered excellent customer service and managed transactions accurately.
- Gained experience in working under pressure and multitasking.
