PROFESSIONAL SUMMARY

Full-stack JavaScript developer with experience building scalable web and mobile applications using React, React Native, Node.js, Express, and MongoDB. Skilled in developing end-to-end product features including REST APIs, authentication systems, database architecture, cloud integrations, and responsive user experiences. Experienced with modern development workflows, AI-assisted tooling, and performance-focused application design for production-ready products.

SKILLS

Frontend	: React, React Native, Expo, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS
Backend	: Node.js, Express.js, REST APIs, JWT Authentication, API Development, Middleware Architecture, Authentication & Authorization, Webhooks, Server-Side Rendering, Backend Integration
Database	: SQL, MongoDB, PostgreSQL (Supabase), Firebase
Mobile Development	: React Native, Expo Router, AsyncStorage, Mobile UI Development
Cloud & Deployment	: AWS (Lambda, EC2, API Gateway, S3, SQS, IAM, CloudWatch), Supabase, Firebase, Vercel, Netlify
Developer Tools	: Git, GitHub, Linux, Docker, Postman, Jest, React Testing Library, Supertest, Vite, VS Code
AI & Productivity	: AI-Assisted Development, Prompt Engineering, Developer Tooling Workflows
Concepts	: State Management, API Integration, Authentication & Authorization, Performance Optimization, Responsive Design, CI/CD, Agile Methodology

PROJECTS

Lumy – Mobile Wallpaper Application (In Development)

- Building a cross-platform mobile wallpaper application using React Native, Expo, and TypeScript with modern mobile-first UI architecture.
- Implemented dynamic theming, reusable component systems, responsive layouts, and optimized image-based user experiences.
- Designed scalable application structure using Expo Router, state management patterns, and performance-focused mobile development workflows.

Natours – Full-Stack Web Application

- Built a full-stack travel booking platform using React, Node.js, Express, and MongoDB with secure authentication and role-based authorization.
- Integrated Stripe Checkout and webhook-based payment processing to automate booking confirmation workflows.
- Designed modular backend architecture with RESTful APIs, middleware, error handling, and scalable data models.

The Wild Oasis – Admin Dashboard Application

- Developed a full-stack admin dashboard with protected authentication flows, real-time data management, and booking operations.
- Implemented advanced frontend patterns including caching, optimistic updates, pagination, filtering, and reusable UI components.
- Managed backend services and cloud database integration for efficient synchronization and application scalability.

EXPERIENCE

Full-Stack JavaScript Developer
Synex Technology

Feb 2025 – Dec 2025
Ahmedabad, Gujarat

- Developed full-stack web application features using React, Node.js, and Express, including frontend interfaces, backend APIs, and database integration.
- Implemented authentication and protected application workflows using JWT, Context API, and role-based access patterns.

- Built reusable REST API structures and optimized application performance through lazy loading, state management, and efficient rendering strategies.

Ecommerce Operations Specialist
Spice Divine Inc

Mar 2023 – Dec 2024
Ottawa, ON

- Managed omnichannel operations across Shopify and Lightspeed POS, ensuring accurate synchronization of products, inventory, and orders.
- Developed a customer-facing POS display system to improve checkout transparency and user experience.
- Streamlined operational workflows through automation and technical troubleshooting to improve reliability and efficiency.

EDUCATION

Bachelor of Science in Information Technology
Auro University - Surat, Gujarat, India

July, 2020

P.G. Diploma in Computer Programming
Algonquin College - Ottawa, Ontario, Canada

August, 2024

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Node.js, Express, MongoDB & More: The Complete Bootcamp, Udemy
- The Ultimate React Course 2025: React, Next.js, Redux & More, Udemy
